Spend the afternoon interacting with one of over 30 local artists, learning about their individual techniques and style with a private demonstration for your group. Wine and cheese may be served for adult groups.

- Artists will have a display of their work during the event which will continue for one week to a month on display
- Artists will take their easel to the shop and paint as they talk to those who come to see them
- Artists will create in different mediums: pottery, sculpture, oils, acrylics, watercolor, pen and ink, pencil and CARTOONING!
- We have also offered introductions to technique that last about 30 minutes and allow artists the opportunity to share their style and explain to others as they demonstrate. This is truly a unique hands-on experience for children and adults alike.
- Other tour options: demonstration of framing techniques and styles, discussions of historical art periods, new technologies of art.
- Open to suggestions to fit your groups' interest.
